Description

In GOTS certified organic cotton with printed scorpions, this grey sweatshirt features striped rib trims at neck, shoulders and hem. The slightly dropped shoulders grant it a relaxed look. • 100 % organic cotton • GOTS certified • Made in Turkey The sweatshirt is produced in a factory that is part of Mini Rodini's living wage project. Instead of paying the workers just the minimum, which is almost impossible to live on, we pay a wage that is high enough to maintain a normal standard of living. Since we are working with products that are mainly used by children, the control of chemical use is of the utmost importance to us. This sweatshirt is GOTS certified – the strictest certification for organic materials on the market today, which involves rigid controls throughout the entire manufacturing process, including chemical use and working conditions.
